No vax, no ride' necessary to preserve safe travel: DOTr

MANILA - The Department of Transportation (DOTr) on Monday reiterated that the "no vaccine, no ride" policy in public transportation is "legally valid" and necessary to help "maintain and preserve safe travel".

In response to a statement from the Integrated Bar of the Philippines (IBP) questioning its legality, the DOTr said it has the authority to issue such policies "under pertinent laws and regulations".

"Remember that the so-called right to ride needs to be balanced with our responsibility as transport regulator to maintain and preserve safe travel," the DOTr said in a statement.

The policy is limited to the National Capital Region (NCR) and would only be implemented while the region is under Alert Level 3 or higher.

"Once we scale down to Alert Level 2, this policy shall automatically be lifted," the statement read.

It echoed Justice Secretary Menardo Guevarra's statement that "the state has the power to regulate the movement of unvaccinated persons if it deems that such regulation is in the interest of public health or public safety."

"The Resolution, which is likewise in line with related IATF (Inter-Agency Task Force for the Management of Emerging Infectious Dis-

eases) resolutions, prohibits unvaccinated individuals from boarding public transport, subject to exceptions," it added.

The policy does not violate Republic Act 11525 which states that vaccine cards shall not be considered as an additional mandatory requirement for educational, employment, and other similar transaction purposes, the department said.

"Access to public transportation is not among those enumerated in the prohibition," the DOTr said.

The vaccine policy, it said, is "not absolute" and has exceptions for those with medical reasons, those who have proof that they need to

acquire necessary goods and services, and those who work in essential industries.

On Friday, the IBP said it "views with concern" the legal implications of government policies affecting unvaccinated persons as they are "treated in a manner that appears in violation of their constitutional rights".

While vaccination "remains the primary scientific way out of this Covid-19 pandemic," it questioned whether individuals can be legally compelled to be vaccinated, whether the "no vaccine, no ride" policy is legal, and whether LGUs can issue ordinances that enforce it. (PNA)

These firetrucks will serve to fill up the long-standing shortage of fire suppression equipment in all the cities and municipalities nationwide. To date, the BFP has 2,492 fire trucks, which fills up about 63.67% of the required 3,914 units nationwide based on the ideal number of 1 per 28,000 population based on Presidential Decree 1184, or the INP Personnel Professionalization Law.

Meanwhile, out of the 2,492 fire trucks in the fleet of the BFP, 1,178 units are operating for more than 20 years, and are due for replacement because of their reduced operational reliability. So far, only 1,314 fire trucks, or 33.57% of the total requirement, are well-conditioned to use anytime across the country.

The 65 modern Fire Trucks are a welcome addition to the BFP's capability. "We are very grateful for the continuous support of our President, and our Senator Bong Go for their passion to ensure that the BFP can meet its challenging demands," Director Puracan said.

In addition, another 104 fire trucks of the same specifications are on the pipeline for procurement and eventual distribution to other cities and municipalities across the nation.

With the recent passing of the BFP Modernization Act, RA 11589 into law, the continuous procurement of emergency vehicles will be expected until the BFP realizes its vision of being a modern fire service, fully capable of ensuring a fire-safe nation by 2034.

SHARE YOUR EXTRAS AT THE SM STORE

Now is the best time to clear the clutter, clean your closets, and share your extras with the less fortunate in the SM Store's Share Your Extras campaign.

A joint project of The SM Store in partnership with SM Foundation and local Department of Social Welfare and Development (DSWD), shoppers can donate their slightly used or brand new clothes (tops and bottoms) for infants to adults. All the items collected will be for the benefit of those affected by the recent Typhoon Odette.

Shoppers can drop off their donations or purchase new ones from The SM Store until February 15 in all branches in Met-

ro Manila, and from February 1 to 28 in the rest of the stores nationwide.

Each donation will entitle shoppers to a P100 discount coupon voucher courtesy of The SM Store. The discount coupon can be redeemed at any The SM Store branch, from January 15, 2022 until February 28, 2023 with a minimum P1000 single-receipt purchase of any denim item from SM Woman, GTW Urban, Just Jeans, Code Blue, and SMYTH.

Share Your Extras is part of the annual donation drive of The SM Store and SM Foundation. Previous beneficiaries included communities in need such as in Marawi, Isabe-

la, and many other communities across the country. As mentioned earlier, this year's campaign will benefit families affected by Typhoon Odette, which has displaced thousands of families in Mindanao.

Share Your Extras is one of the ways The SM Store reaches out to the communities. Other store based projects include Donate-A-Book, Share-A-Toy, Share Shoes, Share-A-Gift, and Gamot Para saKapwa.

Sharing is not just about donating, it is about making a difference in the lives of the less fortunate. Come and Share Your Extras at all branches of The SM Store! **(KCHT)**
