'Kadiwa ng Pangulo' earns over P5-M in just 3 months

MANILA – Six sites of the “Kadiwa ng Pangulo” two-day trade fairs earned over PHP5 million this year.

Junibert de Sagun, chief of the Department of Agriculture (DA) - Market Development Division, shared at the Saturday News Forum in Quezon City that hosts Cebu, Manila, Batangas, Quezon City, Camarines

Sur, and Bataan collected over PHP5.3 million.

“It’s very challenging on the part of the organizers because sales increase every event. So it seems like there is no time to be lazy because one has to earn more than the others,” de Sagun said.

The “Kadiwa ng Pangulo” initiative is participated in by farm-

er cooperatives and government agencies, like the Office of the President, DA, Department of Trade and Industry (DTI), Department of the Interior and Local Government (DILG), Department of Social Welfare and Development, Department of Labor and Employment, and local government units.

There are also at

least 60 regular Kadiwa sites in Metro Manila and 400 more nationwide.

The top sellers are rice and vegetable farmers from Benguet, Nueva Ecija and Quezon, according to de Sagun.

SMC expressways ready for Holy Week exodus

San Miguel Corporation's infrastructure unit said it has made all necessary preparations in anticipation of heavy traffic volume this week at all its expressways, namely the South Luzon Expressway, (SLEX), Southern Tagalog Arterial Road (STAR), the Skyway System, NAIA Expressway, and the Tarlac-Pangasinan-La Union Expressway (TPLEX), as Filipinos head out to the provinces for the traditional observance of Holy Week.

Starting Monday, April, 3, SMC Infrastructure increased its manpower deployment at all its tollways, to meet the expected holiday exodus, and help ensure more efficient and safe travels for motorists.

Mobile patrol units have been deployed

at strategic locations, while more ambulant tellers will be positioned at major toll plazas to assist toll collection personnel, to speed up the flow of vehicles heading out of Metro Manila to northern and southern provinces.

"Our operations teams are prepared for the rush of our kababayans leaving Metro Manila to spend the upcoming holidays with their loved ones in the provinces. We've made the necessary adjustments in our manpower deployment to ensure that traffic will flow smoothly along our carriage-ways and speed up the scanning of Autosweep tags and cards at exits," said SMC President and CEO Ramon S. Ang said.

"We encourage our motorists to make sure their Autosweep RFID accounts have suffi-

cient load and to have their Autosweep cards ready in their vehicles, to avoid any delays. Our ambulant tellers are also equipped to scan cards for faster transactions, in case there is heavy build-up at the exits," Ang added.

Ang said the company has suspended all roadworks and activities that might disrupt the flow of traffic at expressways, starting 12:00 PM of April 3 until 10:00 PM of April 10. He said that SMC Infrastructure has also coordinated with authorities such as the Police and the various local government units, on the implementation of traffic management plans.

"To our motorists, we ask for your patience and understanding, as we all try to get to our destinations safely this Holy Week. Kindly anticipate heavy traf-

fic and plan your trips well. Also, please make sure your vehicles are in good condition and are road-worthy, as common problems we see at expressways--blown out tires and overheating engines--can also cause a significant amount of delay and inconvenience to other motorists," Ang said.

He asked motorists to always keep safety in mind when on the road. Apart from wearing seatbelts and maintaining a safe breaking distance, motorists are reminded to also adhere to speed limits along expressways.

SMC's at-grade expressways have a maxi-

mum speed limit of 100 kph for Class 1 vehicles, and 80 kph for Classes 2 and 3 vehicles. Skyway Stage 3 and the NAIA Expressway have a maximum speed limit of 60 kph, for safety reasons.

In December last year, SMC Infrastructure implemented the Seamless Southern Tollways program which reduced the number of toll stops for motorists passing the South Luzon Expressway and STAR Tollway.

The program has since proven successful at minimizing traffic buildup along the expressways as motorists no longer needed to stop at the Calamba Main

Toll Plaza and SLEX Greenfield.

"Before the Seamless program, traffic buildup at Calamba usually stretched five to seven kilometers. Now, it is gone," Ang explained. We have no more traffic build-up at Calamba and SLEX Greenfield, and our existing toll plazas there are being dismantled."

"We are grateful to our LGU partners who have been supportive of the Seamless Southern Tollways program. We continue to collaborate closely so that we can jointly manage the traffic flow in the exits," Ang added. (SMC Media Affairs)

Upon undergoing an external quality audit last February 8, 2023, TÜV Rheinland, a qualified ISO certifying body, recently released its official audit results last Thursday, March 30, 2023.

Engr. Francisco R. Barquilla, Assistant Regional Director for Technical Operations of DOST-CALABARZON and Quality Core Team Leader expressed his joy upon receiving the results.

"I am really satisfied with the results as it manifests the agency's commitment to quality as it delivers its services to its customers," ARD Barquilla said, "It also reflects the internalization of the workforce with its processes, policies and re-

sources which resulted to efficiency and productivity."

The said audit examined DOST-CALABARZON's compliance with the standard in terms of its scientific and technology transfer services, science promotion, science and technology information dissemination, and science and technology scholarships. The scope of the certification includes DOST-CALABARZON's Regional Office and its five (5) Provincial S&T Offices (PS-TOs).

Ms. Diane Zapata-Ulan, Science Research Specialist II and the designated Internal Quality Audit (IQA) Head of DOST-CALABARZON emphasized the crucial role that both internal and external audits play in ensur-

ing the effectiveness of an organization's system.

According to Ms. Ulan, a Quality Management System (QMS) is a set of policies, processes, and procedures an organization puts in place to ensure that it consistently meets or exceeds customer requirements and expectations. A QMS includes internal and external audits, essential tools for monitoring the system's effectiveness and ensuring it functions correctly.

Ms. Ulan remarked, "Both internal and external audits play a crucial role in an organization's operations and public service delivery," she continued, "A QMS with regular internal and external audits can help an organization achieve its goals,

improve its operations, and deliver high-quality public services."

DOST-CALABARZON is committed to continuously develop and enhance its QMS. ARD Barquilla mentioned that various feedbacks from stakeholders and customers can provide insights on the organization's impact in terms of its services and products.

"By monitoring our key performance indicators, managing risks and opportunities, we are able to sustain DOST-CALABARZON's high performance and cultivate innovativeness in the workplace," ARD Barquilla said.
